

# Loop Walks Involving the Heysen Trail

## Mylor-Aldgate Circuit

8-9kms, about 2-3 hours

Walk some little known tracks around Aldgate Creek using the Bandicoot Trail and linking with back roads to the Heysen Trail as it parallels the Strathalbyn Road and then traversing the Mylor Conservation Park.

1. Start the walk at the small car park at the entrance to the Mylor Conservation Park on Whitehead Road (left off Strathalbyn Road just prior to crossing the bridge into Mylor from the north). Head south along the HT towards Mylor and left onto the Strathalbyn Road.
2. Turn right up Stock Road and pick up the foot path to the right of the tennis court (toilets here) and continue parallel to the road until a beige shed and tank posted Lot 900 is reached.
3. Cross Stock Road opposite shed and follow foot track that then twists and turns for some way eventually

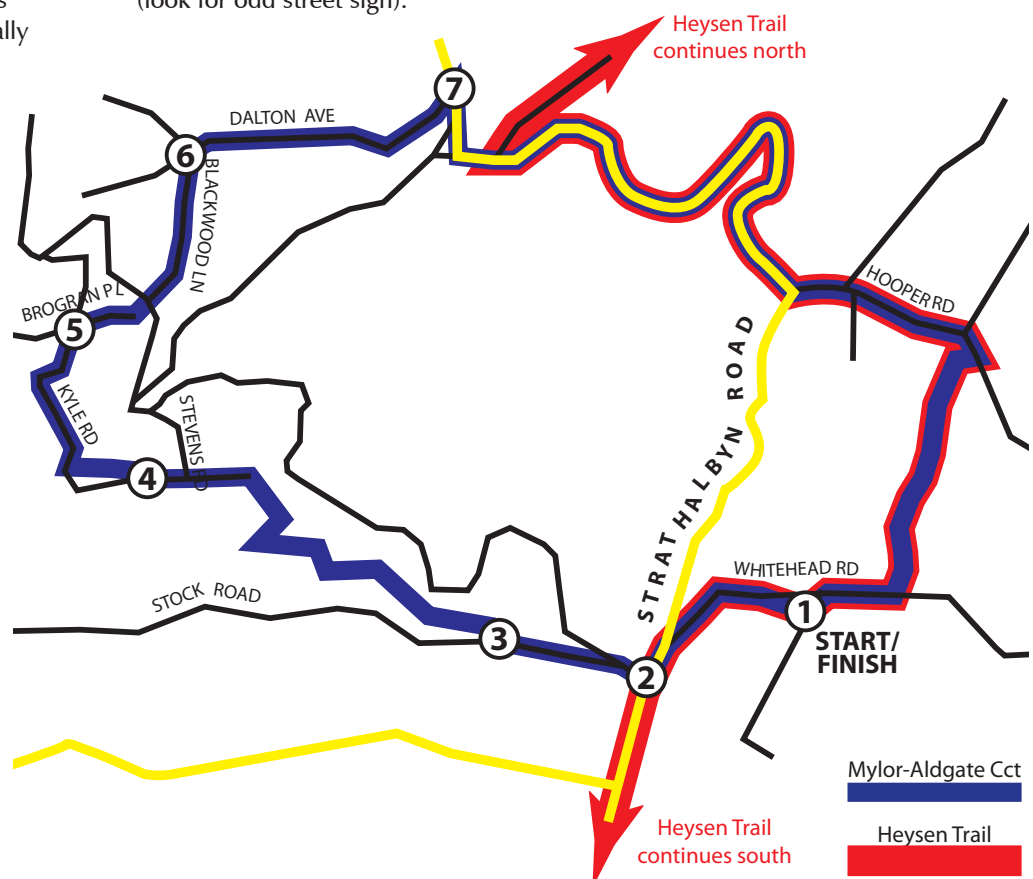

coming out on Kyle Road. Continue past Stevens Road until confronted by two gates.

4. Opposite gate with GR943205 take track through pines reaching feral proof fence of Warrawong Sanctuary. Track comes onto Kyle Road again, past National Trust Nurrutti Reserve, finally reaching Brogan Place.
5. Turn right down Brogan Place, find foot track across Aldgate Creek. Cross Aldgate Valley Road (bitumen) up Blackwood Lane (No Through Road) and follow fire track to Dalton Road (look for odd street sign).

6. Turn right and follow Dalton Road for some distance until Strathalbyn Road is reached.

7. Turn right and pick up the Heysen Trail which follows Strathalbyn Road, Hooper Road and then enters the Mylor Conservation Park. This will take you back to your start point.

For more detailed maps, refer to a street directory and Maps 3.2 and 3.3 from the Heysen Trail Southern Guide.

### The Friends of the Heysen Trail

The Heysen Trail is maintained by the not-for-profit organisation The Friends of the Heysen Trail, who are dedicated to the maintenance and development of walking trails; and to the promotion of bushwalking as a healthy leisure activity.

More information about the Heysen Trail and the Friends of the Heysen Trail can be found at [www.heysentrail.asn.au](http://www.heysentrail.asn.au)
