

HUPPUTZ HUT

Welcome to this shelter along the Heysen Trail which was constructed in September/October 1989 by a group of unemployed and homeless people from the Adelaide Central Mission's, Day Centre in Adelaide..

The project was funded by the South Australian Recreation Institute and given full support by the owners of the property the Hupputz family.

The original building was a small timber framed hut built as a Kiosk at the Riverton Golf links. This building is no longer recognisable as it constituted the southern half of the present hut. Stones for the chimney were gathered off the nearby paddocks and slate for the floors came from nearby Mintara Slate quarries. The builders included, Paul Nicholas, Supervisor, Keith Hall, Lincensed builder, Leon Kirvan, Greg Lowe, Mick Winter, Ian Higgins, Jeffrey Upton, Kevin Cartledge and with some slate tiling done by Claude Nicholas.

Visitors are welcome to stay for one or two nights. Please make room if others come along and replace all firewood that you use. Please leave the place in a tidier condition than when you found it.

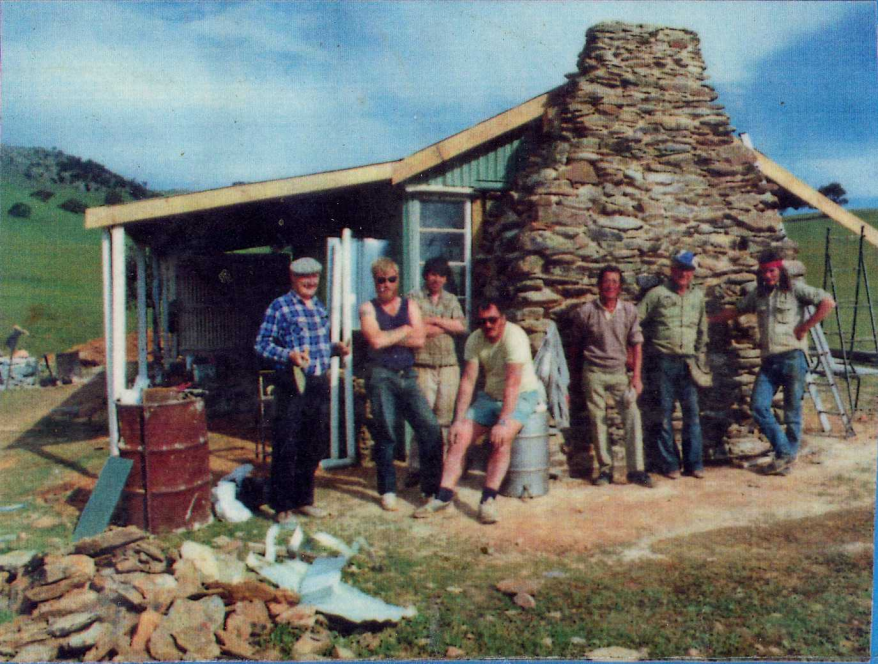

We trust you've had a pleasant stay.

4 Its really good to see property owners with such an excellent attitude to others using their land. Camped Yes/No

Yes we camped.

Cont. Heading North from Cape Town's Non-stop. Heyson Trail much better than Mawson Trail. But must appease owners of land & certain Conservationist types.

All in all excellent.

12/6/95	1st Mr Lofty	arrived from Steina Hill at 4:05 p.m. Sunday. The wind & drizzling rain sometimes masked our view but we did see many Rainbows! On Sat. the wind was so strong that we were leaning about 30° into wind & feared for the safety of some of our little Scouts. Indeed some crawled from the ridge down below the top where the wind was a little less strong. This hut was particular welcome as we had a 19k. hike yesterday - a fair distance for some of the 11 yr olds! The fog came in after we arrived & today had dawned calm but drizzly.	Yes

	very long person	We arrived yesterday (pm); having now completed Cape Jervis to Logan's Gap. We'll be back - good little camping spot. Consideration for 1 night's accommodation was - repaired southern window - replaced perspex & sealed with Ductape. Oiled door opening mechanism. <u>Keep fire at back of fireplace as it draws straight up. - smokey otherwise.</u> Chopped & replaced wood, fixed axe head back onto handle.	
		Had a good time. Ta!

May 3rd + 4th 2003 - Sunday morning - Trail Re-route weekend - Burra Branch - Peter van Beausichem,

Peter Shopp, Trevor Sims, Dave Stoddart (Clare Lions Members)

Arthur Simpson, Peter van Beausichem, Jennie & Leo Abbott

Brendon Weber, Tim, Hugh & Kate Greenhill. Six of us stayed

overnight here at the Hut. The fire was great but it does need

something to stop it smoking. The re-route work has gone well

and the new section passes thru' some great country - particularly

Gordon Noakes. Arthur S. made new toasting fork. Haven't quite

finished the work. Two more stiles to build. Great

weekend and great company. We will be back

May 6 Dave Evans Stopped for lunch. Great spot No

Budgie Blaise We appreciate Doug & his team's work

May 20 James Buffery Thought I would look & it looks good Thanks
