Re-Route at Mt Remarkable Summit

Map 3.1, Northern Guidebook

A new walking trail has been constructed around the western side of the summit to provide views of the north-west of the park and Spencer Gulf. A short walking trail extends from the Heysen Trail to the summit.

A second stage of walking trail will be constructed soon.

As part of these works, the Summit Camp was closed and the hikers' shelter water tank removed. Melrose and Grays Hut are nearby.
